

TR50 BAKERY TRAY FORMER

Wayne Automation has formed an exciting new partnership with Innovative Fiber to develop quality packaging solutions that emphasize performance and sustainability.

For Bakeries & Food Companies

Unlike aluminum, foam, plastic, and other less sustainable products, our joint solution enables food producers to use sustainable packaging products, such as [CorrBake™](#) and [CorrFresh™](#), as part of their end of line processing. Together, Wayne Automation and Innovative Fiber can help you create an economical, customizable, and environmentally friendly solution for your consumable goods.

Features of TR50 Tray Former

- Speeds Up to 50 Trays Per Minute
- Hot Melt Glue Tray Forming
- Hot Melt with Cold Adhesive Tray Forming
- Lexan® Safety Door Anti-Intrusion System
- All Servo Motion Magazine Pick-and-Place and Tray Transporter
- Quick and Easy Changeover
